

# 3D Hologram Effect Viewer

## **Directions:**

The QR code below will provide a short playlist as well as additional instructions on how to use the viewer.

Cut out shape on solid lines. Fold on dotted lines to form a 3D trapezoid, using the slotted tabs to secure both ends together.

## **To Use:**

Place trapezoid with the small side resting flat on the screen of a smartphone or tablet. Play one of the special 3D Hologram videos and view from the side. For more videos, search for "3D Hologram Videos".

Best viewed in a darkened room.

Download template to print on transparency film at [www.MakEdu.org](http://www.MakEdu.org)
